

PERSONAL LIFE CONSULTANT

Expert Guidance

Did you know that with certain fish their capacity to grow depends on the size tank in which they swim? Likewise, if you are frustrated, it may be because you are “swimming in a tank when the ocean is beckoning you.” The challenge is you have an entire lifetime of training that has emotionally conditioned you to certain scripts that are so strong and deeply embedded that the potential for your growth is not dictated by an economy or environment, it is dictated by the power of the unconscious limitations that you place on yourself because of the boundaries you’ve run into due to your own history.

Here is the fun part: According to neuroscientists, we all have 1 of 16 brain types and each one has a genius capacity. What you must realize is that there were one million sperms in a race to fertilize an egg, and you won the race in the one million-person marathon. So, you are one in a million, which makes you very valuable. As personal life consultants, we train you how to recognize your passion and talents and gifts and how to utilize those gifts to

function at an unparalleled level. Once you recognize how you are fearfully and wonderfully made, and are clear on what your passion is, you will give yourself permission to come alive on a newer level. Whether you are an entrepreneur or are blessed to have someone place you in a position where you can do what you do naturally, we will have you living as if on permanent vacation. Our PBSU Personal Mastery Training © seminars and personal consulting assists you in shattering belief systems that can unleash the unconscious potential to do whatever is in your heart to do.
