

PRISON REFORM

We offer PBSU Personal Mastery Training © to inmates to help redirect the trajectory of their lives.

Prison has never been the problem. It has always been the result of poor decision-making through lack of self-mastery education. One prison Chaplain stated, "I personally have found the principles I used from the Mosses to be revolutionary in fulfilling the maximization of my own purpose and destiny. So provocative I could not contain this type of material alone. I have introduced this valuable material to twenty-three hundred, all male offenders in our correctional facility."
